Objective: Computer Science graduate (GPA: 3.3/4.0) currently working as an IT Support / Helpdesk & Website Administrator at Phu Nong Co., Ltd. Experienced in on-site and remote end-user technical support, PC/OS/printer troubleshooting, workstation deployment, internal LAN/WAN & IP administration, and full-access corporate WordPress website management.

Work Experience

Phu Nong Co., Ltd. - IT Support / Helpdesk & Website Administrator ***2025 - Present***

Responsibilities:

- **End-User Technical Support (On-site & Remote Helpdesk):** Provide daily L1/L2 technical support for all departments via on-site assistance and remote tools (UltraViewer, AnyDesk, TeamViewer); troubleshoot and resolve PC/Laptop hardware failures, Windows 10/11 OS errors, Microsoft Office/Outlook issues, and software conflicts.
- **Internal Network, IP & Device Administration:** Administer internal LAN/WAN networks, manage static/dynamic IP allocation (DHCP/DNS), and configure enterprise Wi-Fi access points, routers/switches, network printers/scanners, timekeeping devices, and IP CCTV camera systems to ensure seamless connectivity.
- **Workstation Setup, IT Asset Management & Maintenance:** Set up and deploy computers, email accounts, and required software for new employees; manage IT equipment inventory, perform hardware upgrades (RAM/SSD), data backups, and periodic system maintenance.
- **Official Website Administration (phunong.com.vn):** Serve as full-access Website Administrator on WordPress - customizing drag-and-drop page layouts, fixing UI/UX display issues, publishing product and news articles, and monitoring website traffic and performance analytics.

Education

Nam Can Tho University ***2021 - 2025***
